

Ferrey Adinarta

Fullstack Engineer · Next.js · TypeScript · Golang

Semarang, Indonesia · +62 897-0086-988 · ferreyadinarta5@gmail.com · linkedin.com/in/ferrey-adinarta · statsy.page

PROFESSIONAL SUMMARY

Fullstack Engineer with 2+ years building real web apps professionally. I work mainly on the frontend with Next.js and TypeScript, but I am comfortable going end to end with Golang and PostgreSQL on the backend. At my current job I have shipped features for a company-wide ERP system used daily by real teams. Outside work I am building Statsy, a SaaS product, from scratch. I am looking for a remote role where I can own features end to end and keep growing fast.

EXPERIENCE

PT Mitra Kasih Perkasa (MKP)

Jun 2024 – Present

Junior Software Engineer · Semarang, Indonesia (On-site)

- Developed and maintained document management modules for an internal ERP system, including document creation, approval flows, and generation workflows
- Built end-to-end document flow features handling multi-step business processes, keeping state consistent across every step
- Connected frontend interfaces to REST APIs built in Golang, working closely with backend engineers to get things right
- Used Git, Jira, Postman, and Slack daily to stay in sync with the team and ship features on time

PT Mitra Kasih Perkasa (MKP)

Jan 2024 – Jun 2024

Frontend Developer Intern · Semarang, Indonesia (On-site)

- Built frontend features for an internal Project Management System (PTMS), including Minutes of Meeting (MoM) document creation and management
- Developed a Kanban board so teams could track tasks and project progress visually
- Helped design and implement early screens for the company ERP system that I later continued full-time
- Worked with React, JavaScript, and Tailwind CSS in a real production codebase from day one

PROJECTS

Statsy (statsy.page)

2025 – Present

Solo Founder · SaaS (In Development)

- Building a simple, affordable status page tool for developers, small teams, and agencies, from design to deployment
- Sole developer handling full-stack architecture: Next.js, TypeScript, Tailwind CSS, Supabase
- Live landing page with waitlist at statsy.page

EDUCATION

Universitas Katolik Soegijapranata (Unika)

Aug 2021 – Dec 2024

Bachelor of Science in Computer Science · GPA: 3.97 / 4.00

- Student Senate member, Faculty of Computer Science on 2 consecutive terms (2022/2023 & 2023/2024)
- Served as external public relations officer, managing communication between faculty and students
